

```
graph TD; A{Do you need data augmentation?} -- no --> B[Fast feature extraction  
run the base once,  
cache features to disk  
seconds per epoch]; A -- yes --> C[End-to-end extraction  
chain base + classifier,  
run every image every time  
far more expensive];
```

Do you need
data augmentation?

no

Fast feature extraction
run the base once,
cache features to disk
seconds per epoch

yes

End-to-end extraction
chain base + classifier,
run every image every time
far more expensive
