

Artificial intelligence  
since the 1950s

```
graph TD; A["Artificial intelligence  
since the 1950s"] --> B["Symbolic AI  
hand-coded rules"]; A --> C["Machine learning  
rules learned from data"]; C --> D["Deep learning  
successive layers"]; C --> E["Shallow learning  
one or two layers"];
```

The diagram is a hierarchical tree structure. At the top is a box labeled 'Artificial intelligence since the 1950s'. Two arrows point down from this box to 'Symbolic AI hand-coded rules' on the left and 'Machine learning rules learned from data' on the right. From the 'Machine learning' box, two more arrows point down to 'Deep learning successive layers' on the left and 'Shallow learning one or two layers' on the right. All boxes are light blue with dark blue borders and text.

Symbolic AI  
hand-coded rules

Machine learning  
rules learned from data

Deep learning  
successive layers

Shallow learning  
one or two layers
