

An autoencoder can
remove
a small amount of noise

```
graph TD; A[An autoencoder can remove a small amount of noise] --> B[Repeat it in a loop to remove a large amount of noise]; B --> C[Could you denoise an image made of pure noise?]; C --> D[Yes. New images, hallucinated out of nothing];
```

Repeat it in a loop to
remove
a large amount of noise

Could you denoise an
image
made of **pure noise**?

Yes.
New images, hallucinated
out of nothing
