

Rank 0 — scalar

shape `()`

a single number

Rank 1 — vector

shape `(4,)`

a row of numbers

Rank 2 — matrix

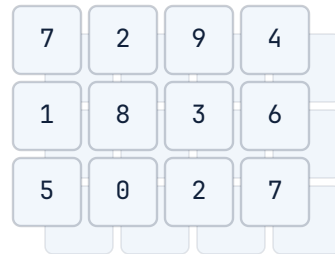

shape `(3, 4)`

rows of vectors

Rank 3 — tensor

shape `(2, 3, 4)`

a stack of matrices

Rank is how many indices it takes to reach one number: `t`, `t[i]`, `t[i][j]`, `t[i][j][k]`.
